

Client Experience

Lyme Disease

I got bitten on my right ear in mid July 2014. I never saw what bit me, but my ear became very inflamed. Around two weeks later I had lost most of the hearing in my right ear, and the general area was still angry and inflamed. I attended a GP who prescribed cream, steroids and irrigation of the ear canal.

Over the next month everything seemed to return to normal - until the vertigo/imbalance problems started. By September 2014 I was experiencing chronic fatigue, severe muscle/joint pain, brain fog and vertigo to name a few. However my bloods were only showing up some slight imbalance in thyroid function and a weakness of the balance mechanism in the right inner ear. I went from doctor in search of answers because I intuitively knew something was wrong.

By March 2015 (9 months after being bitten) I was only a shadow of my former self and was forced to resign from a career which I loved. This was heart breaking and devastating on so many levels, but still I tried to pick myself up and figure out what was going on. Over the next few months I attended dozens of 'health gurus' both mainstream and alternative, in search of answers.

In mid 2015 Autonomic Response Testing established the presence of MSIDS (multiple systemic infectious diseases) along with Borrelia (aka Lyme).

Additionally a specialist MD found high levels of lead and mercury in the blood. In due course I embarked on a treatment program developed by the German doctor, Dr Klinghardt. I made some improvement on this program, although progress was painfully slow.

It wasn't until late 2016 when I added Bio Magnetic Pair Therapy to the mix that my improvement became much more obvious. I started Bio Magnetic Pair Therapy with Linda in November 2016 and by February 2017 I was back at work. At time of writing (May 2017) I am continuing the treatments and continuing to experience improvement. I don't take anything for granted, however where I am now versus where I was a year ago is truly amazing.

Physical Injury Post Bereavement

I had my first Bio Magnetic treatment with Linda in 2016, a month after my father passed away. In the clearout of the house, I had injured my right arm, incurring two tendon tears and a very serious tear through the centre of the muscle. I was in terrible pain, I couldn't lift my arms up or fasten my clothes at the back. I walked around clutching my injured limb. My doctor administered a cortisone injection which lodged in the muscle and only caused more excruciating pain.

Having seen a surgeon, he told me I would have to be operated on. I wasn't having that! Linda and I have been friends for many years and she is one of the most important people in my life. I knew she was training to be a therapist, and she took me on and helped me greatly. She was able to antidote the damage caused by the cortisone injection, and applied magnets to many parts of my body to remedy the imbalances, and repair my damaged tissues.

I didn't have to have any surgery. This was a journey to further good health, as I have been having this treatment a few times since, recently to eradicate a pneumonia and its accompanying symptoms which had reoccurred. I can't speak highly enough of the treatment or of Linda. While she is my friend, she is also exceptionally good at what she does and extremely attentive. I am always amazed at the time she invests in her preparation, treatment and aftercare. I would highly recommend her.

Stress and Anxiety

My initial interaction with Linda was through my wife who had been diagnosed with Lyme Disease and several co infections following years of misdiagnosis. Having witnessed at first hand the gradual improvement in my wife's condition and with her encouragement I decided to have a treatment myself. I initially presented with fatigue, stress and ongoing lung and digestive issues which had not been resolved with regular conventional medicine.

I was genuinely astounded at the results which Linda achieved after even a couple of treatments. I was under significant stress at the time and Linda's ability to identify root causes and resolve them has made a significant difference to both my life and that of my wife.

Linda has a unique gift which allows her to treat her clients which in turn begins the healing process allowing the body to repair itself whilst also addressing root causes which have gone undetected for years. Mental clarity , improved energy levels and focus of mind are just some of the benefits which I can genuinely say have improved my life.

I would without hesitation recommend Linda for anyone struggling with a difficult condition as the benefits are potentially life changing.

James T 2019

Thyroid Dysfunction and Child Skin Condition

“When, I first started attending Linda about 18 months ago with extreme tiredness and having no energy, complete and utter fatigue. My Thyroid does not function and I was taking prescribed medication for the Thyroid. Because I felt so bad my medication was being increased which caused me to feel worse. I felt when I closed my eyes to sleep at night that I might not wake up to see the next day. I am blessed to have my young son and grandson, I wanted to live to see them grow up.

When I began attending Linda, she explained to me that all my organs were under pressure to function which in turn made me reflect on how hard my body was working. Initially when I went to see Linda and even still the first two or three days I would not feel great but after that it would lift and I would have days of feeling normal again and slowly I am beginning to enjoy all the things I had stopped taking part in, circuit training etc.

Without attending Linda and receiving the bio-magnetism treatments I am not sure I would be here today so extreme was the tiredness, every day normal tasks were becoming impossible which created a vicious circle of not feeling great leaning towards foods high in sugar to give me energy. I now have more energy to live life to the full which on a daily basis was very difficult before to have hope for the future. I have energy for all the things life throws at you on a daily basis. I am able to function better at work, at home and with extended family and friends to attend all the events that I was struggling to attend. Such was the tiredness, it became difficult to smile.

In recent months, I have started to bring my young son to see Linda as he would suffer with similar fatigue symptoms but more so he developed a Fungal thing on his elbows and knees that was spreading down his arms and legs after several visits attending the GP and chemist for treatment and not getting any-where with it. I brought him to see Linda, the Fungal thing stopped spreading and cleared up in a few days and his energy levels were great and he was taking part in activities in school and after school.

Bio-magnetism has saved my life and has given me great hope for the future and in turn has saved my marriage and friendships that were suffering as a result of the extreme tiredness. I now know I will be around to see my young son and my grandchildren grow up. The future looks very bright.

Panic Attacks

"In 2018 I had been suffering from very bad anxiety where I couldn't sleep, I had no appetite and I was having panic attack after panic attack. My plan of action was obviously to go to the Doctor because I wasn't aware that there was anything else that could help me.

Thankfully Linda was recommended to me by a friend, in which I am so grateful for. I still remember the days following my appointment and the relief I felt. Even the I truly recommend Linda to anybody who may be suffering from Anxiety or Panic attacks as it worked for me at a time when I felt like nothing could."

Anna

Life Balance Renewed

I was so happy with the outcomes of my 6 Biomagnetic Therapy sessions with Linda towards the end of 2021. I was feeling fatigued, overwhelmed with work, disconnected at home and a general sense of lack-lustre. After the first session I immediately felt a little better and the improvement continued with each session. Linda's engagement with me, her explanations of what was happening with me and the impact that some of my maligned gut microbiomes were having on my 'form' was A1. Even the bits I didn't fully understand, I just went with it. With just a few adjustments to my diet and some of the supplements I usually take, my energy returned.

I visited Linda again in January 2022 after a significant Covid19 infection which had left me feeling drained and exhausted. After 2 sessions (one online) I was back to my old self again and feeling energised and engaged with my life. I couldn't recommend Linda highly enough.

Respiratory & Breathlessness

From around September'21 time I had been experiencing heart palpitations, quite a high heart rate at rest and on exertion. I found that when I climbed even a short flight of stairs I was breathless. This was extremely unusual for me as I am only 20 years old and I have played sport for the majority of my life. Since returning to college I found myself having flu like symptoms every week which wasn't normal for me. I had two sessions with Linda about a month apart and had great results from these sessions. I had tried plenty of other things before going to Linda for Biomagnetic Therapy but this therapy was the only thing that worked for me. I now do not suffer from any heart palpitations and I can climb a flight of stairs with ease, which is such a relief! My immune system is back working well as I haven't had flu symptoms since. I really recommend Biomagnetic Therapy to young people in hope that it will help you as much as it did me

-KW. December 2021

Quantum Experience

My treatments with Linda have truly helped restore my enthusiasm and vigor for life. During the treatments themselves I was very relaxed while being aware of tingling and moving energy sensations on the parts of my body that Linda was working on. In the days and weeks following, I experienced a new sense of calmness and harmony as my health issues began to resolve. I highly recommend Linda, and want to thank her sincerely for helping to restore my health.
